

43" Curved Business Monitor with 32:10 Super Ultra-wide screen

Topline Key Features and Benefits

1. The 32:10 aspect ratio 43" screen size is the same as two 24" monitors
2. Simple and powerful connectivity with a single cable
3. Built-in KVM switch helps eliminate the need for multiple keyboards and mice
4. Curved screen helps provide viewing comfort

Key Features and Message Hierarchy

Display more of your documents easily

Samsung's super ultra-wide 43" screen delivers a real dual monitor experience and is the same size as two 24" monitors without the ratio distortion.

Simple and powerful connectivity with a single cable

USB Type-C transmits power, data and display signals between devices with just one connection. Besides USB type-C port, almost any device can be used by USB ports without needing extra hubs or applications.

Built-in KVM Switch

The built-in KVM switch lets you control two devices connected to the monitor with just one keyboard and mouse. Instantly toggle control between the devices with the one-touch button conveniently located on the underside of monitor panel.

Curved screen helps provide viewing comfort

Engineered to match the natural curvature of the eyes, the ergonomic 1800R curved panel helps provide viewing comfort. You can swivel, tilt, pivot and adjust the height of the display to help maximise your comfort and productivity.
